

# Always Expect the Unexpected!

**Hundreds of trains collide with trucks every year leading our industry for vehicular accidents and its not hard to guess which is going to win!**

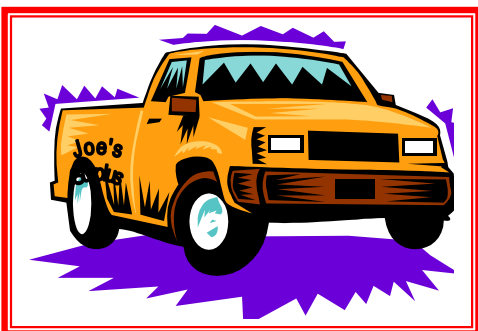

## Know the Rules:

**ALL commercial vehicles must slow down when approaching tracks. All tank units and vehicles required to display hazardous material placards are required to **STOP**. (49 CFR sec. 392.10)**

**If stopping is required:**

- Stop between 15 and 50 feet of the tracks.
- Watch or look for trains in both directions of the tracks before proceeding.
- Cross carefully without shifting gears!

**For all commercial motor vehicles:**

- Slow down to enable a stop.
- Make sure tracks are clear.
- Cross with care!
